Indicator Crosswalk

National Core Indicators®—Intellectual and Developmental Disabilities (NCI-IDD)

and

National Core Indicators—Aging and Disabilities® (NCI-AD)

What are Indicators?

NCI indicators are measures that are designed to assess progress or performance in domains and sub-domains that reflect the aims of state aging, physical disabilities, and intellectual and developmental disabilities (IDD) systems. The NCI-IDD survey measures are focused on the IDD population, and the NCI-AD measures are focused on the aging and physical disabilities populations.

To have utility for measurement purposes, indicators must reflect major organizational or system goals, address issues that can be influenced by the organization or system, and have face validity (i.e., the indicator measures what it's supposed to).

Indicators provide an overall picture of system performance and also make it possible to track specific outcomes over time. For instance, if a state places priority on increasing access to the community, one of the indicators that state would want to pay close attention to would be: "Percentage of people who have adequate transportation to do the things they want outside of home."

What is included in this document?

This document provides a detailed list of indicators that are used across NCI-IDD and NCI-AD, for reference the domain or subdomain (i.e., the area of interest) is included with each indicator in parentheses.

For a full list of NCI-IDD indicators visit: <https://www.nationalcoreindicators.org/about/indicators/>

For a full list of NCI-AD indicators visit: <https://nci-ad.org/resources/the-survey/>

NCI-IDD Indicator <i>(An asterisk (*) denotes that a higher percentage for this indicator may not suggest a more positive outcome)</i>	NCI-AD Indicator	Full Match (F) Partial Match (P)
The percentage of people who are reported to have competitive paid jobs in community-based businesses (<i>employment</i>)	Percentage of people who have a paid job (<i>work</i>)	F
Among those who are not reported to have a paid job in the community, the percentage who want one (<i>employment</i>)	Percentage of people who would like a job (<i>work</i>)	F
The percentage of people who do the things they like in their communities as much as they want (<i>community inclusion and belonging</i>)	Percentage of people who are able to do things they enjoy outside of home as much as they want to (<i>community participation</i>)	P
Of those who do not live in the family home, the percentage of people who reported having input in choosing their housemates (<i>choice and decision-making</i>)	Percentage of people in group settings who are able to choose their roommate (<i>choice and control</i>)	P
The percentage of people who report having input in choosing their daily schedule (<i>choice and decision-making</i>)	Percentage of people who are able to get up and go to bed when they want to; Percentage of people who are able to eat their meals when they want to (<i>choice and control</i>)	P
The percentage of people who report having choice in their staff (<i>choice and decision-making</i>)	Percentage of people who can choose their paid support staff (<i>self-direction</i>)	P
The percentage of people reported to be using a self-directed supports option (<i>self-direction</i>)	The percentage of people reported to be using a self-directed supports option (<i>self-direction</i>)	F
The percentage of people who report being able to see and/or communicate with their families they want; The percentage of people who report that they can meet up with friends in person when they want (<i>relationships</i>)	Percentage of people who are able to see or talk to their friends and family when they want (<i>relationships</i>)	P

NCI-IDD Indicator <i>(An asterisk (*) denotes that a higher percentage for this indicator may not suggest a more positive outcome)</i>	NCI-AD Indicator	Full Match (F) Partial Match (P)
The percentage of people who report often feeling lonely* <i>(relationships)</i>	Percentage of people who often feel lonely (<i>wellness</i>)	F
The percentage of people who report they like where they live (<i>satisfaction</i>)	Percentage of people who like where they live (<i>satisfaction</i>)	F
The percentage of people who report that they would like to live somewhere else* (<i>satisfaction</i>)	Percentage of people who want to live somewhere else* (<i>satisfaction</i>)	F
The percentage of people who usually like how they spend their time during their day (<i>satisfaction</i>)	Percentage of people who like how they spend their time during the day (<i>satisfaction</i>)	F
The percentage of people who report that there are rules about having friends or visitors at home* (<i>rights and respect</i>)	Percentage of people in group settings whose visitors are able to come at any time (<i>rights and respect</i>)	P
The percentage of people who report being able to lock their bedroom (<i>rights and respect</i>)	Percentage of people in group settings who are able to lock the door to their room (<i>rights and respect</i>)	P
The percentage of people who report staff treat them with respect (<i>workforce</i>)	Percentage of people whose paid support staff treat them with respect (<i>rights and respect</i>)	F
The percentage of people who report staff are respectful of their culture (<i>workforce</i>)	Percentage of people whose services and supports were delivered in a way that is respectful of their culture (<i>rights and respect</i>)	P
The percentage of people who report staff do things the way they want them done (<i>workforce</i>)	Percentage of people whose paid support staff do things the way they want them done (<i>satisfaction</i>)	F
The percentage of people who report their staff change too often* (<i>workforce</i>)	Percentage of people whose paid support staff change too often* (<i>satisfaction</i>)	F
The percentage of people who report staff come and leave when they are supposed to (<i>workforce</i>)	Percentage of people whose paid support staff come and leave when they are supposed to (<i>service coordination</i>)	F

NCI-IDD Indicator <i>(An asterisk (*) denotes that a higher percentage for this indicator may not suggest a more positive outcome)</i>	NCI-AD Indicator	Full Match (F) Partial Match (P)
The percentage of people who report that they know who to talk to if they want to change services (<i>service coordination</i>)	Percentage of people who know whom to contact if they want to make changes to their services (<i>service coordination</i>)	F
The percentage of people who report that they communicate with their case manager/service coordinator when they want (<i>service coordination</i>)	Percentage of people who can reach their case manager when they need to	F
The percentage of people who report that the service planning meeting included people they wanted to be there (<i>service coordination</i>)	Percentage of people whose service planning meeting included the people they wanted to be there (<i>state-optional person-centered planning module</i>)	F
The percentage of people who report that they helped make their service plan (<i>service coordination</i>)	Percentage of people who are involved in making decisions about their service plan (<i>state-optional person-centered planning module</i>)	P
The percentage of people who report that their service plan includes things that are important to them (<i>service coordination</i>)	Percentage of people whose service plan includes their preferences and choices (<i>state-optional person-centered planning module</i>)	P
The percentage of people who report that they have a way to get places when they want to do something outside of the home (<i>access</i>)	Percentage of people who have adequate transportation to do the things they want outside of home (<i>access to community</i>)	F
The percentage of people who report that they have a way to get places they need to go (<i>access</i>)	Percentage of people who have adequate transportation to get to medical appointments (<i>access to community</i>)	P
The percentage of people who have access to the internet (<i>access</i>)	Percentage of people with access to the internet (<i>access to technology</i>)	F
The percentage of people who report they have access to stable and reliable internet (<i>access</i>)	Percentage of people with access to home internet service that always works (<i>access to technology</i>)	F
The percentage of people who report they have used telehealth (<i>access</i>)	Percentage of people who have talked to health professionals using video conference/telehealth (<i>access to technology</i>)	F

NCI-IDD Indicator <i>(An asterisk (*) denotes that a higher percentage for this indicator may not suggest a more positive outcome)</i>	NCI-AD Indicator	Full Match (F) Partial Match (P)
The percentage of people who are reported to have had a routine dental exam in the past year; The percentage of people who are reported to have had an annual physical exam within the past year; The percentage of people who are reported to have had a hearing test within the past 5 years; The percentage of people who are reported to have had a vision screening within the past year (<i>health</i>)	Percentage of people who have preventive health screenings and exams in the past 12 months (including physical exam, dental exam, eye exam, hearing test) (<i>health care</i>)	P
The percentage of people who are reported to have had a flu vaccination within the past 12 months (<i>health</i>)	Percentage of people who are reported to have had a flu vaccination within the past 12 months (<i>health care</i>)	F
The percentage of people who report that they have gone to the emergency room in the past 12 months* (<i>health</i>)	Percentage of people who experience potentially preventable emergency room visits (<i>health care</i>)	P
The percentage of people who report being in poor health (<i>health</i>)	Percentage of people who report being in poor health (<i>wellness</i>)	F
The percentage of people reported to be taking medications for mood, anxiety, and/or psychotic disorders (<i>medication</i>)	Percentage of people who take medications to help them feel less sad or depressed (<i>wellness</i>)	P
