

NCI ANNUAL MEETING: EXAMINING THE NATIONAL CORE INDICATOR DATA IN SOME NEW AND DIFFERENT WAYS IN CALIFORNIA

Presented to:
August 12, 2015

Ashleigh Belding
Holly Hatton Bowers
Melanie Schindell

PROPOSED ADDITIONS

- **Mover expansion study**
 - A longitudinal study to examine the quality of lives of individual movers
 - Using the NCI Adult Consumer Survey
 - Piloting User Friendly Questions

- **Examining NCI data for supplemental analyses by additional factors**
 - Income, race or ethnicity, primary language, age

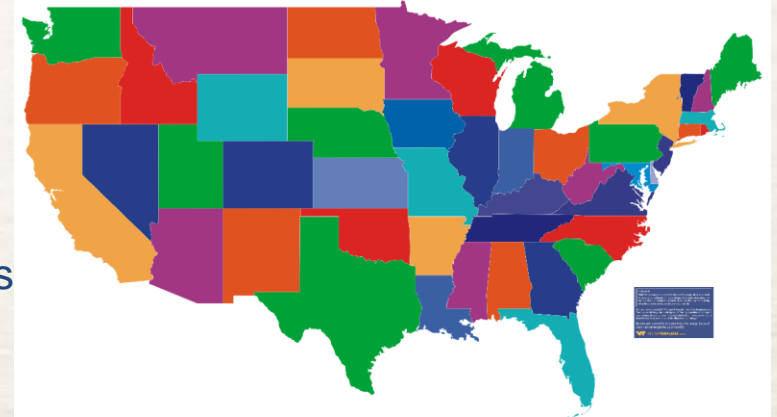

NATIONAL CORE
INDICATORS

REVIEW OF NCI SAMPLING STRATEGY

NCI Sampling Criteria for Consumer Survey:

- Adults age 18 and over
- Must be receiving at least one service besides case management (CA: per year)
- From across all residential settings

DDS CA Specifications:

- Valid sample sizes for each of the 21 regional centers
- Subgroups of interest are adequately represented

METHODOLOGY

- Randomized sample of 400 consumers per regional center =2100

MOVER LONGITUDINAL SURVEY

Goal: Evaluate how services meet the changing needs of “Movers”

Developmental Centers

Community

7/28/2015

MOVER LONGITUDINAL SURVEY

What is it?

- Tracks the same movers and their families over time
 - Tells us how needs may change for a mover over time
 - Tells us more information on how to better support movers
- Surveys occur at specific time segments
- Unique to each individuals move date

MOVER LONGITUDINAL SURVEY

15-16

16-17

17-18

Cohort Moving Dates

3 month

6 month

12 month

24 month

PROPOSED TIMELINE

Move
Date

- A move date is chosen

3mo

- Initial Survey 1 "Mover Experience Survey"
- Initial Survey 2: CS
- Initial Survey 3: FGS

6mo

- Survey 1: 2nd round Interview of the CS
- Survey 2: 2nd round of FGS

12mo

- Survey 1: 3rd round Interview of the CS
- Survey 2: 3rd round of FGS

24mo

- Survey 1: 3rd round Interview of the CS
- Survey 2: 3rd round of FGS mailed to family/guardians

MOVER LONGITUDINAL STUDY

- Watch individual change in indicators over time
- Watch group change in indicators over time
- Comparison between individual movers year-to-year
- Comparison between mover groups year to year

USER FRIENDLY SECTION I

- To increase participation of those who are unable to answer Section I
- 10 questions
- Includes photographs
- Invite staff person who knows the individual's communication best to help with understanding.

USER FRIENDLY SECTION I

Yes

No

USER FRIENDLY SECTION I

This person has a job
She is working

**Do you have a job?
Do you work?**

This person likes her home
She likes where she lives

**Do you like where you live?
Do you like your home?**

These people have friends

Do you have friends?

EXAMINING NCI DATA FOR SUPPLEMENTAL ANALYSES

- **Do race or ethnicity play a role in satisfaction with services and supports? In health disparities?**
 - **Example:** White, Non-Hispanic compared to Hispanic
- **Does income play in a role in satisfaction with services and supports? In health disparities?**
 - **Example:** Families with incomes below the federal poverty line compared to higher incomes
- **Does primary language play a role?**

QUESTIONS?
