What We Have Learned From the National Core Indicators Adult Consumer Survey

NCI Results From People Across Utah in 2012-13
User-Friendly Version

A Collaborative Effort of:

Cover art by Donald Roberts (1962 -2009)

Donald was a former member of the statewide Consumer Advisory Committee in California, Valley Mountain Regional Center Board of Directors, Olmstead Advisory Committee, California Memorial Project, and Self-Advocacy Council 6. Donald was dedicated to the empowerment of people with disabilities and expressed his experiences and dreams through his artwork.

What Is National Core Indicators (NCI)?

Each year, NCI asks people with intellectual and developmental disabilities (ID) and their families about the services they get and how they feel about them. NCI uses surveys so that the same questions can be asked to a large group.

Who is interviewed?

Each year people in many states take part in an NCI meeting. Every year a new group of people are asked to meet. During the meeting people are asked the NCI survey questions. The questions are asked to the person who gets services from the state. For some questions, a family member, friend, or staff member who knows the person well can answer.

What is this report?

This report shows the answers that people gave to some NCI survey questions. Each page shows a different question and the answers. Each page also has a pie graph. It shows how many people said **yes** and how many said **no**. There are also words and stick figures that show how many yes and no answers there were for each question. The answers are whole numbers (like 60% or 90%).

In this report, we show the answers to the questions that people are most interested in. Like, “Did you choose your job?”

This report can help people talk about services and supports. If you want more information, you can look up the full report at: <http://www.nationalcoreindicators.org>

Do you have a paid job in your community?

NCI tells us **2** out of every **10** people have a paid job in the community.

Do you like where you work?

NCI tells us **9** out of every **10** people who have a paid job in the community said they **like where they work**.
