Summary	71

What is NCI?

The National Core Indicators© (NCI) program is a voluntary effort by state developmental disability agencies to gauge their own performance using a common and nationally validated set of measures. The effort is coordinated by the National Association of State Directors of Developmental Disabilities Services (NASDDDS) in collaboration with the Human Services Research Institute (HSRI). NCI has developed a set of more than 100 standard performance measures (or “indicators”) that states use to assess the outcomes of services provided to individuals and their families. These indicators focus on areas such as: employment, rights, service planning, community inclusion, choice, health, and safety. For the 2013-14 data collection cycle, 40 states, the District of Columbia, and 22 sub-state entities participated in NCI.

What is the NCI Adult Consumer Survey?

The NCI Adult Consumer Survey is an interview conducted with a person who is receiving services from the state; it is used to gather data on approximately 60 consumer outcomes, and it is regularly refined and tested to ensure that it is valid and reliable. Interviewers meet with individuals to ask questions about where they live and work, the kinds of choices they make, the activities they participate in within their communities, their relationships with friends and family, and their health and well-being.

What topics are covered by the survey?

The National Core Indicators are organized by “domains” or topics. These domains are further broken down into sub-domains, each of which has a statement that indicates the concerns being measured. Each sub-domain includes one or more “indicators” of how the state performs in this area. The table on the following page lists the domains, sub-domains, and concern statements addressed by the NCI Adult Consumer Survey indicators.

TABLE 1. NCI ADULT CONSUMER SURVEY – DOMAINS, SUB-DOMAINS, CONCERN STATEMENTS

Domain	Sub-Domain	Concern Statement
Individual Outcomes	Work	People have support to find and maintain community integrated employment.
	Community Inclusion	People have support to participate in everyday community activities.
	Choice and Decision-Making	People make choices about their lives and are actively engaged in planning their services and supports.
	Self Determination	People have authority and are supported to direct and manage their own services.
	Relationships	People have friends and relationships.
	Satisfaction	People are satisfied with the services and supports they receive.
	Health, Welfare, and Rights	Safety
Health		People secure needed health services.
Medications		Medications are managed effectively and appropriately.
Wellness		People are supported to maintain healthy habits.
Respect/Rights		People receive the same respect and protections as others in the community.
System Performance	Service Coordination	Service coordinators are accessible, responsive, and support the person's participation in service planning.
	Access	Publicly-funded services are readily available to individuals who need and qualify for them.

How were people selected to participate?

Each state is instructed to attempt to complete a minimum of 400 surveys with a random sample of individuals age 18 or older who are receiving at least one publicly funded service besides case management. A sample size of 400 allows valid comparisons to be made across states with a 95% confidence level and a +/- 5% margin of error. Both the confidence level and margin of error used are widely accepted for reviewing results, regardless of population size. Most states draw a sample greater than 400 to account for refusals and inaccurate contact information.

Proxy Respondents

Proxy responses are allowed only for the background information section of the survey (e.g., demographics) and for Section II (Community Inclusion, Choices, Respect/Rights, and Access to Needed Services), which is based on objective measures. Proxy respondents are used only when the individual cannot complete the survey or chooses to have a proxy respondent. Only people who know the individual well – such as family, friends, or staff – are acceptable respondents. To avoid conflict of interest, service coordinators are not allowed to respond for individuals on their caseloads.

Limitations of Data

The NCI Adult Consumer Survey tool is not intended to be used for monitoring individuals or providers; instead, it assesses system-wide performance. The NCI Average should not be interpreted as necessarily defining “acceptable” levels of performance or satisfaction. Instead, it describes average levels of performance or satisfaction across the states. It is up to public managers, policy-makers, and other stakeholders to decide what is an acceptable or unacceptable result (i.e., scale score or percentage of individuals achieving the indicated outcome).

What is contained in this report?

This report compares the 2013-14 NCI Adult Consumer Survey demographic and individual outcome results from Minnesota to the NCI Average (the average of all state percentages). Twenty-eight (28) states¹, the District of Columbia, and one regional council submitted valid samples of Adult Consumer Survey data. All results are shown in chart form along with descriptive text to the right of each outcome chart. **Please note**, if a state had fewer than 20 respondents to certain question, the state is excluded from the analysis for that particular question.

State and national data results for the NCI Adult Consumer Survey can also be found online at <http://www.nationalcoreindicators.org>.

¹ Mississippi (MS) and New Mexico (NM) submitted Adult Consumer Survey data, however, the data for those states are not included in the NCI Average because survey administration protocol were not followed.

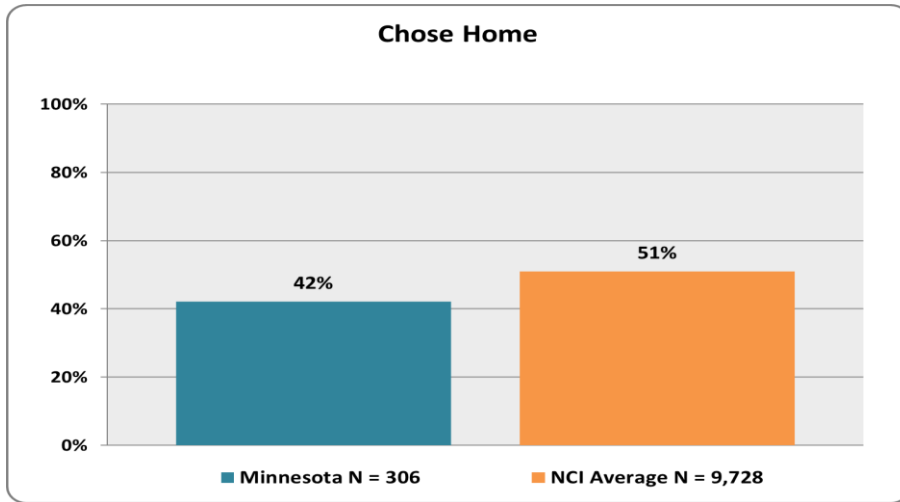

GRAPH 15. SUPPORT NEEDED FOR DESTRUCTIVE BEHAVIOR

Choice

People make choices about their lives and are actively engaged in planning their services and supports.

GRAPH 16. CHOSE HOME

This graph illustrates that 42% of respondents from Minnesota and 51% across NCI states reported that they chose or had some input in choosing where they live.

States ranged from 21% to 81%.

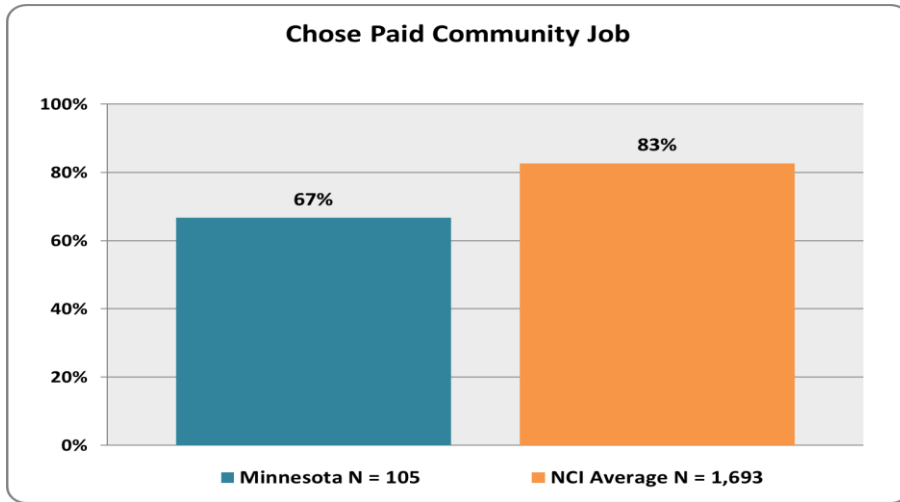

GRAPH 17. CHOSE ROOMMATES

This graph illustrates that 29% of respondents from Minnesota and 44% across NCI states reported that they chose or had some input in choosing the people with whom they live, or that they chose to live alone.

States ranged from 13% to 72%.

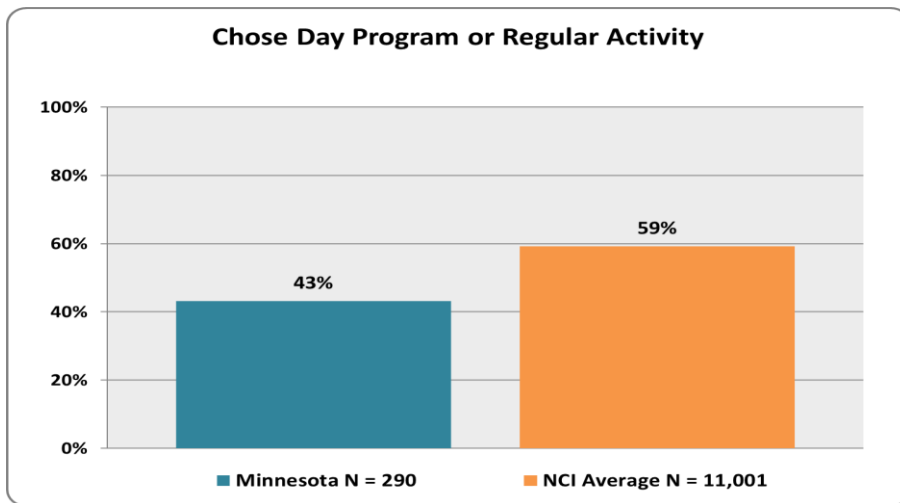

GRAPH 18. CHOSE PAID COMMUNITY JOB

This graph illustrates that among respondents with a paid job in the community, 67% from Minnesota and 83% across NCI states reported that they chose or had some input in choosing where they work.

States ranged from 39% to 98%.

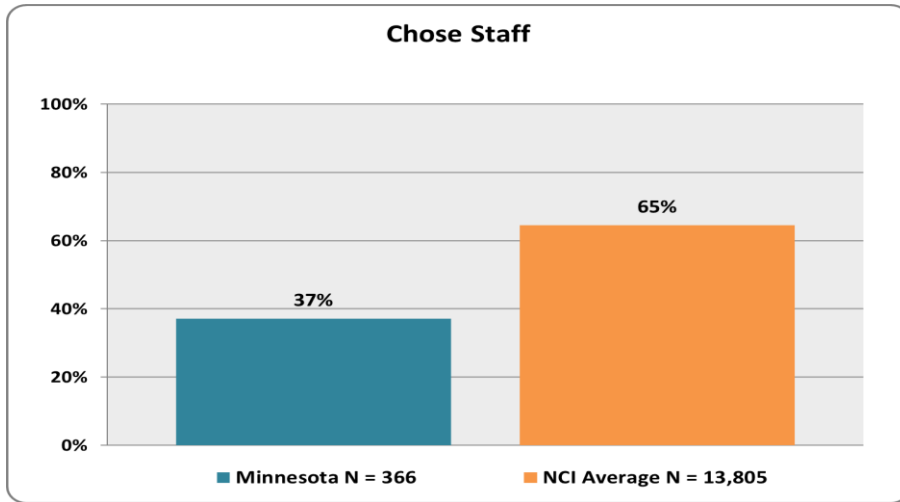

GRAPH 19. CHOSE DAY PROGRAM OR REGULAR ACTIVITY

This graph illustrates that among respondents with a day program or regular activity, 43% from Minnesota and 59% across NCI states reported that they chose or had some input in choosing where they go during the day.

States ranged from 22% to 88%.

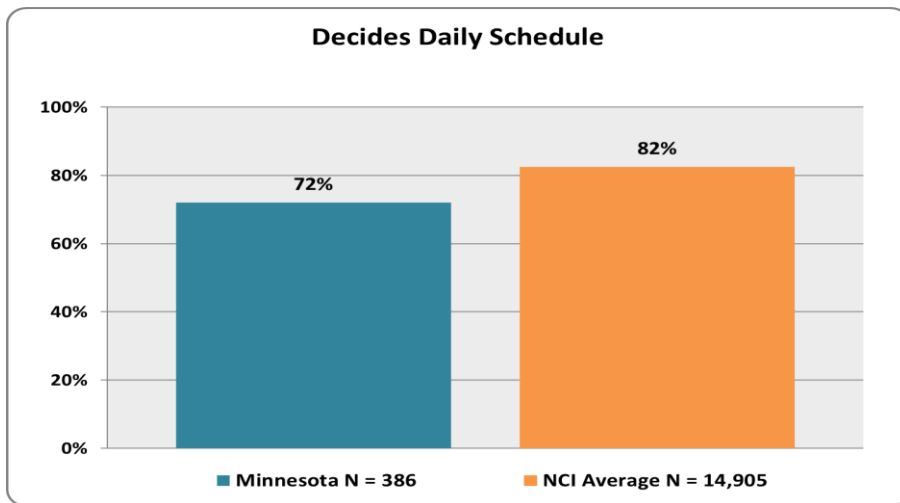

GRAPH 20. CHOSE STAFF

This chart illustrates that 37% of respondents from Minnesota and 65% across NCI states reported that they chose or were aware they could request to change the staff who help them at their home, job, or day program or regular activity.

States ranged from 22% to 89%.

GRAPH 21. DECIDES DAILY SCHEDULE

This graph illustrates that 72% of respondents from Minnesota and 82% across NCI states reported that they decide or have input in choosing their daily schedule.

States ranged from 72% to 95%.

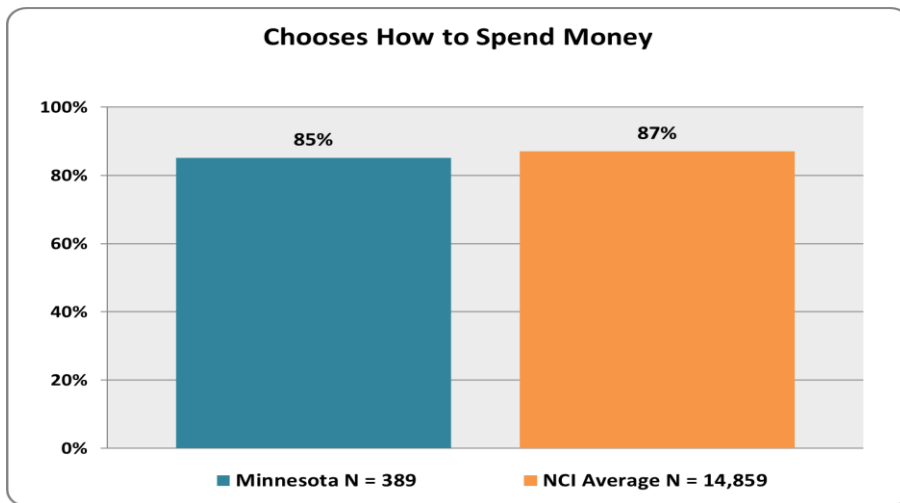

GRAPH 22. DECIDES HOW TO SPEND FREE TIME

This graph illustrates that 88% of respondents from Minnesota and 91% across NCI states reported that they decide or have input in choosing how to spend free time.

States ranged from 79% to 98%.

GRAPH 23. CHOOSES HOW TO SPEND MONEY

This graph illustrates that 85% of respondents from Minnesota and 87% across NCI states reported that they choose or have input in choosing how to spend their money.

States ranged from 68% to 97%.

GRAPH 24. CHOSE CASE MANAGER/SERVICE COORDINATOR

This graph illustrates that 48% of respondents from Minnesota and 63% across NCI states reported that they chose or were aware they could request to change their case manager/service coordinator.

States ranged from 29% to 99%

Community Inclusion

People have support to participate in everyday community activities.

GRAPH 25. WENT OUT SHOPPING IN THE PAST MONTH

This graph illustrates that 89% of respondents from Minnesota and 87% across NCI states reported that they went out shopping in the past month.

States ranged from 73% to 94%.

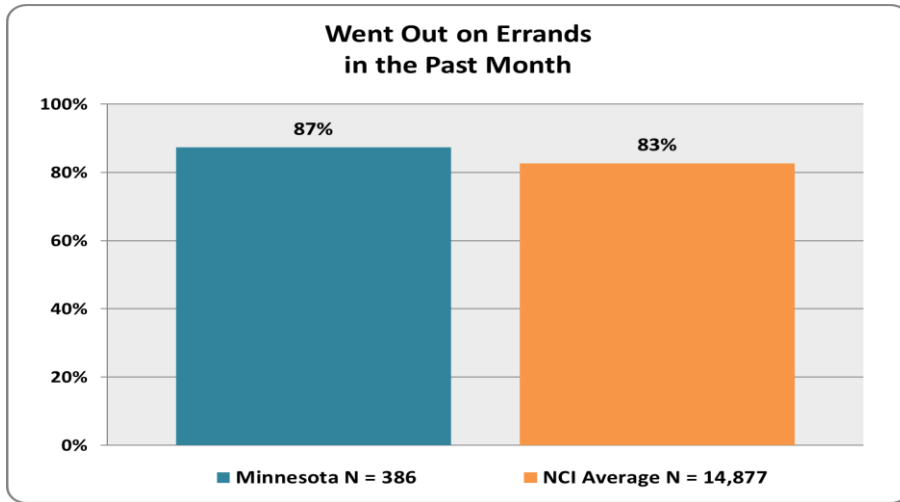

GRAPH 26. AVERAGE TIMES WENT OUT SHOPPING IN THE PAST MONTH

This graph illustrates that respondents from Minnesota went out shopping an average of 4.6 times in the past month, and respondents across NCI states went an average of 4.1 times.

States ranged from 2.4 to 6.1 times.

GRAPH 27. WENT OUT ON ERRANDS IN THE PAST MONTH

This graph illustrates that 87% of respondents from Minnesota and 83% across NCI states reported that they went out on errands or for appointments in the past month.

States ranged from 55% to 93%.

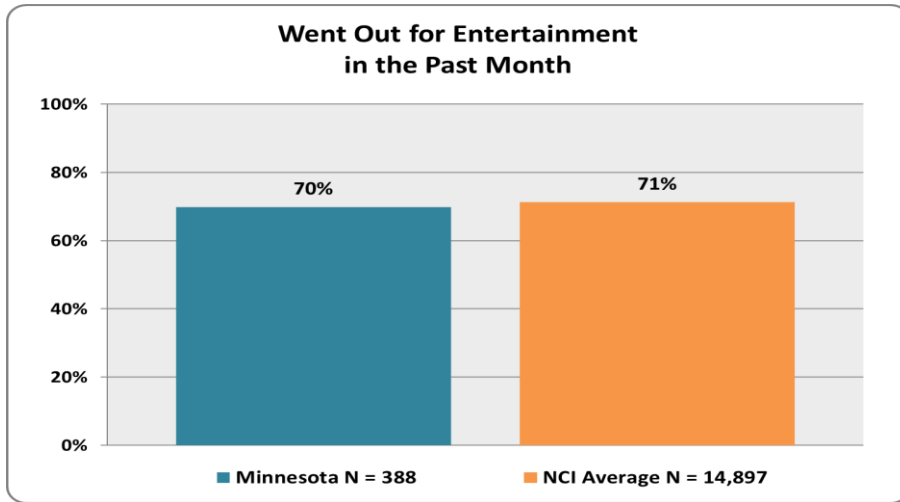

GRAPH 28. AVERAGE TIMES WENT OUT ON ERRANDS IN THE PAST MONTH

This graph illustrates that respondents from Minnesota went out on errands or for appointments an average of 3.2 times in the past month, and respondents across NCI states went an average of 2.9 times.

States ranged from 1.7 to 5.2 times.

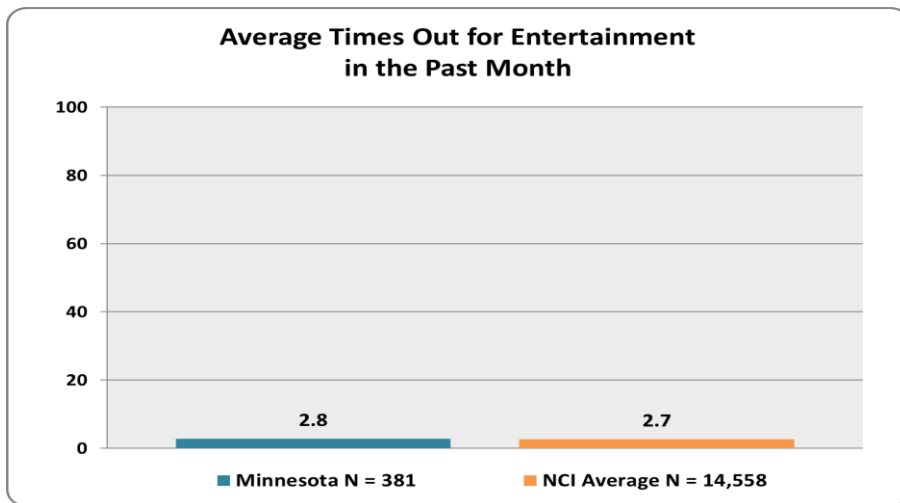

GRAPH 29. WENT OUT FOR ENTERTAINMENT IN THE PAST MONTH

This graph illustrates that 70% of respondents from Minnesota and 71% across NCI states reported that they went out for entertainment in the past month.

States ranged from 50% to 84%.

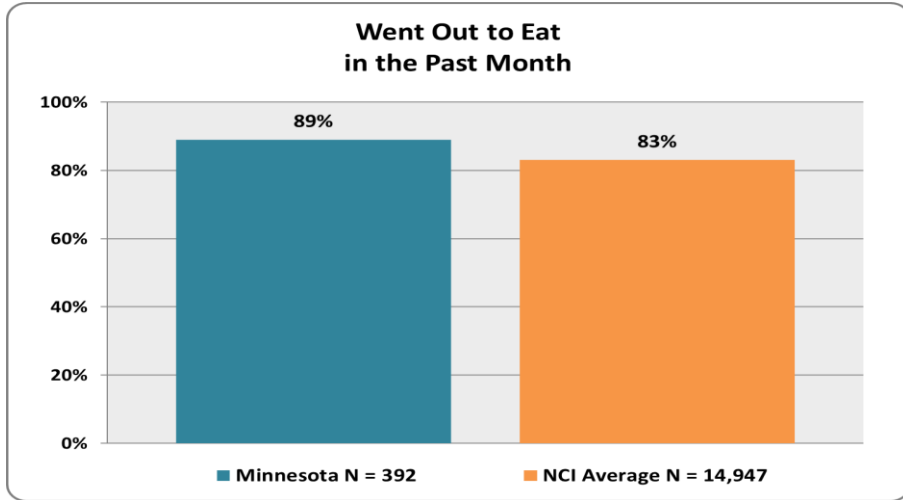

GRAPH 30. AVERAGE TIMES WENT OUT FOR ENTERTAINMENT IN THE PAST MONTH

This graph illustrates that respondents from Minnesota went out for entertainment an average of 2.8 times in the past month, and respondents across NCI states went an average of 2.7 times.

States ranged from 1.3 to 4.3 times.

GRAPH 31. WENT OUT TO EAT IN THE PAST MONTH

This graph illustrates that 89% of respondents from Minnesota and 83% across NCI states reported that they went out to eat in the past month.

States ranged from 49% to 94%.

GRAPH 32. AVERAGE TIMES WENT OUT TO EAT IN THE PAST MONTH

This graph illustrates that respondents from Minnesota went out to eat an average of 3.7 times in the past month, and respondents across NCI states went an average of 3.7 times.

States ranged from 1.8 to 5.6 times.

GRAPH 33. WENT OUT TO RELIGIOUS SERVICES IN THE PAST MONTH

This graph illustrates that 48% of respondents from Minnesota and 48% across NCI states reported that they went out to a religious service or spiritual practice in the past month.

States ranged from 33% to 71%.

GRAPH 34. AVERAGE TIMES WENT OUT TO RELIGIOUS SERVICES IN THE PAST MONTH

This graph illustrates that respondents from Minnesota went out to a religious service or spiritual practice an average of 1.8 times in the past month, and respondents across NCI states went an average of 1.8 times.

States ranged from 1.1 to 2.5 times.

GRAPH 35. WENT OUT FOR EXERCISE IN THE PAST MONTH

This graph illustrates that 61% of respondents from Minnesota and 59% across NCI states reported that they went out for exercise in the past month.

States ranged from 29% to 85%.

GRAPH 36. AVERAGE TIMES WENT OUT FOR EXERCISE IN THE PAST MONTH

This graph illustrates that respondents from Minnesota went out for exercise an average of 5.0 times in the past month, and respondents across NCI states went an average of 6.6 times.

States ranged from 1.9 to 13.8 times.

GRAPH 37. WENT ON VACATION IN THE PAST YEAR

This graph illustrates that 52% of respondents from Minnesota and 45% across NCI states reported that they went on vacation in the past year.

States ranged from 18% to 81%.

GRAPH 38. AVERAGE TIMES WENT ON VACATION IN THE PAST YEAR

This graph illustrates that respondents from Minnesota went on vacation an average of 1.3 times in the past year, and respondents across NCI states went an average of 0.7 times.

States ranged from 0.4 to 1.3 time.

Work

People have support to find and maintain community integrated employment.

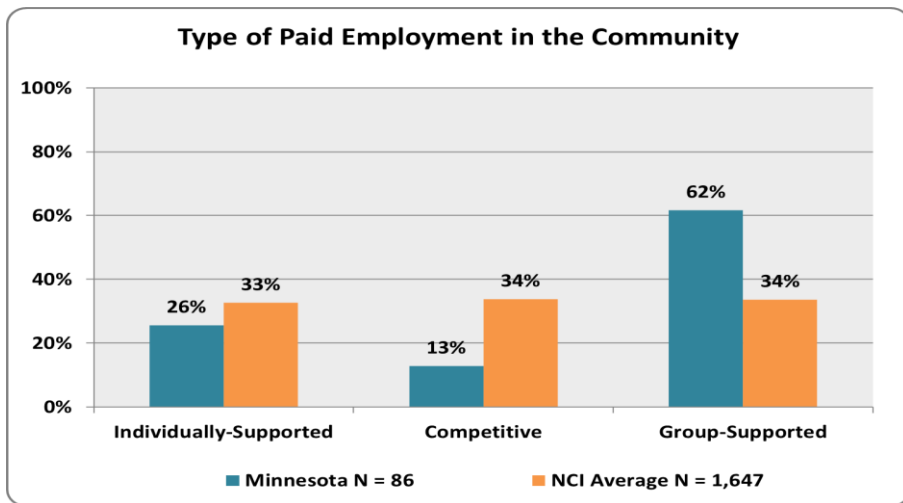

GRAPH 39. HAS A PAID JOB IN THE COMMUNITY

This graph illustrates that 31% of respondents from Minnesota and 16% across NCI states were reported to have a paid job in the community.

States ranged from 5% to 31%

GRAPH 40. TYPE OF PAID EMPLOYMENT IN THE COMMUNITY

This graph illustrates that respondents with a paid job in the community work in the following position types—in Minnesota and across NCI states, respectively: 26% and 33% in individually-supported positions, 13% and 34% in competitive positions, and 62% and 34% in group-supported positions.

State averages ranged from 7% to 60% in individually-supported employment; 12% to 67% in competitive employment; and 0% to 67% in group-supported employment.

GRAPH 41. AVERAGE BI-WEEKLY HOURS

This graph illustrates the average number of hours that respondents with a paid job in the community—in Minnesota and across NCI states, respectively—worked in a typical two-week period: 31.1 and 24.2 in individually-supported employment, NA and 28.5 in competitive positions, and 29.9 and 31.9 in group-supported employment.

States ranged from 15.6 hours to 34.6 hours in individually-supported employment; 19.4 hours to 40.5 hours in competitive employment; and 26.5 hours to 49.6 hours in group-supported employment.

GRAPH 42. AVERAGE BI-WEEKLY GROSS WAGES

This graph illustrates the average gross wages earned in a typical two-week period among respondents with a paid job in the community—in Minnesota and across NCI states, respectively: \$235.00 and \$197.89 individually-supported, NA and \$227.44 competitive, and \$108.89 and \$170.73 group-supported.

States ranged from \$125.98 to \$303.06 in individually-supported employment; \$189.79 to \$261.50 hours to in competitive employment; and \$108.89 to \$234.61 in group-supported employment.

GRAPH 43. AVERAGE BI-WEEKLY HOURLY WAGE

This graph illustrates the average hourly wage among respondents with a paid job in the community, in Minnesota and across NCI states, respectively: \$7.75 and \$8.33 in individually-supported jobs, NA and \$8.20 in competitive jobs, and \$4.05 and \$5.69 in group-supported jobs.

States ranged from \$6.98 to \$9.30 in individually-supported employment; \$6.87 to \$9.23 hours to in competitive employment; and \$4.05 to \$7.56 in group-supported employment.

GRAPH 44. WORKED 10 OF THE LAST 12 MONTHS IN A PAID COMMUNITY JOB

This graph illustrates that among respondents with a paid job in the community, 85% from Minnesota and 84% across NCI states were reported to have worked 10 of the last 12 months in their position.

States ranged from 73% to 90%.

GRAPH 45. RECEIVES BENEFITS AT PAID COMMUNITY JOB

This graph illustrates that among respondents with a paid community job, 26% from Minnesota and 25% across NCI states were reported to receive paid vacation or sick time.

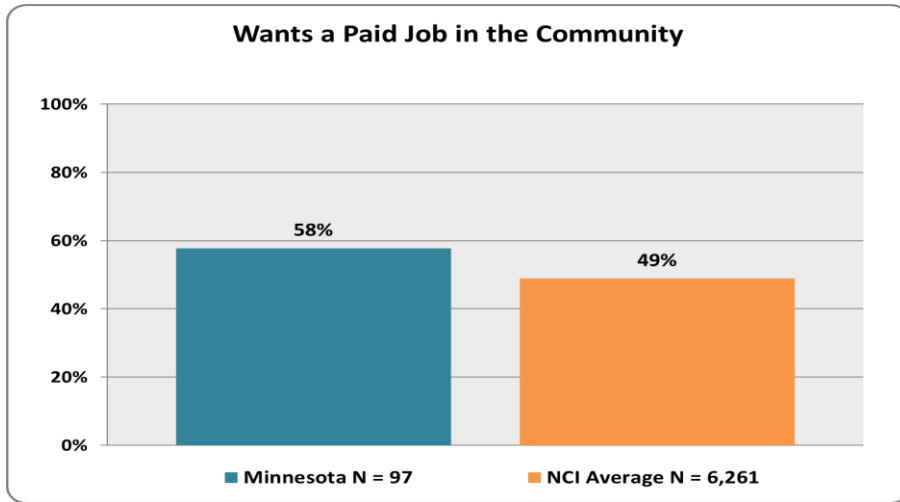

States ranged from 2% to 64%.

GRAPH 46. FOUR MOST COMMON FIELDS OF PAID COMMUNITY EMPLOYMENT

This graph illustrates the percentage of respondents working in the most common job industries, in Minnesota and across NCI states, respectively: 12% and 18% in food preparation and service; 33% and 33% in building and grounds cleaning or maintenance; 4% and 15% in retail; 19% and 9% in assembly, manufacturing, or packaging.

GRAPH 47. WANTS A PAID JOB IN THE COMMUNITY

This graph illustrates that among respondents without a paid job in the community, 58% from Minnesota and 49% across NCI states reported they'd like a paid job in the community.

States ranged from 10% to 66%.

GRAPH 48. HAS COMMUNITY EMPLOYMENT AS A GOAL IN SERVICE PLAN

This graph illustrates that 40% of respondents from Minnesota and 25% across NCI states were reported to have integrated employment as a goal in their service plan.

States ranged from 7% to 51%.

GRAPH 49. ATTENDS A DAY PROGRAM OR REGULAR ACTIVITY

This graph illustrates that 58% of respondents from Minnesota and 71% across NCI states reported that they attend a day program or regular activity.

States ranged from 41% to 95%.

GRAPH 50. VOLUNTEERS

This graph illustrates that 34% of respondents from Minnesota and 32% across NCI states reported that they do volunteer work.

States ranged from 11% to 47%.

Relationships

People have friends and relationships.

GRAPH 51. HAS FRIENDS

This graph illustrates that 82% of respondents from Minnesota and 76% across NCI states reported that they have friends other than family or paid staff.

States ranged from 48% to 90%.

GRAPH 52. HAS A BEST FRIEND

This graph illustrates that 87% of respondents from Minnesota and 79% across NCI states reported that they have a best friend (who may be family or paid staff).

States ranged from 63% to 88%.

GRAPH 53. CAN SEE FRIENDS

This graph illustrates that 79% of respondents from Minnesota and 78% across NCI states reported that they have the support needed to see their friends when they want.

States ranged from 33% to 91%.

GRAPH 54. CAN SEE FAMILY

This graph illustrates that 84% of respondents from Minnesota and 80% across NCI states reported that they have the support needed to see their family when they want.

States ranged from 69% to 90%.

GRAPH 55. FEELS LONELY

This graph illustrates that 40% of respondents from Minnesota and 40% across NCI states reported that they feel lonely at least half the time.

States ranged from 15% to 51%.

GRAPH 56. CAN GO ON A DATE

This graph illustrates that 85% of respondents from Minnesota and 83% across NCI states reported that they can date or can date with some restrictions.

States ranged from 43% to 95%.

GRAPH 57. CAN HELP OTHER PEOPLE

This graph illustrates that 89% of respondents from Minnesota and 86% across NCI states reported that they can help others if they want to.

States ranged from 27% to 97%.

Satisfaction

People are satisfied with the services and supports they receive.

GRAPH 58. LIKES HOME

This graph illustrates that 89% of respondents from Minnesota and 90% across NCI states reported that they like their home.

States ranged from 79% to 97%.

GRAPH 59. WANTS TO LIVE SOMEWHERE ELSE

This graph illustrates that 26% of respondents from Minnesota and 26% across NCI states reported that they want to live somewhere else.

States ranged from 8% to 36%.

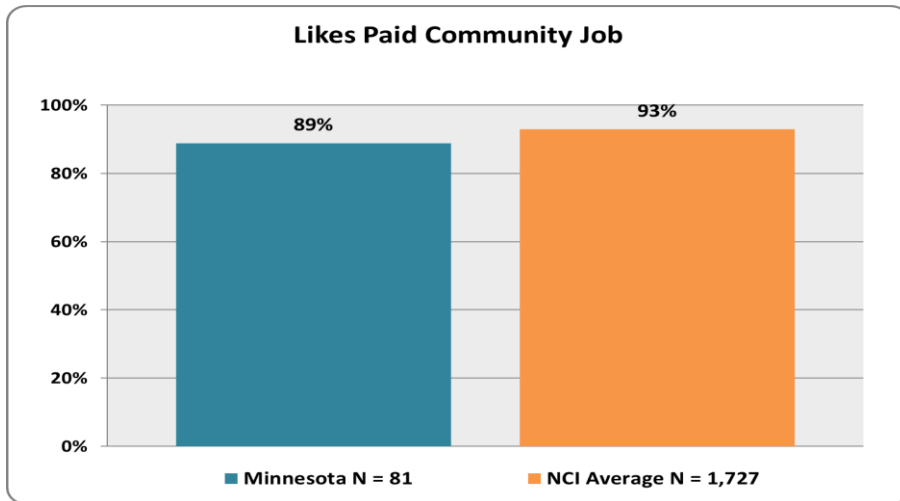

GRAPH 60. TALKS WITH NEIGHBORS

This graph illustrates that 64% of respondents from Minnesota and 65% across NCI states reported that they talk with their neighbors at least some of the time.

States ranged from 36% to 84%.

GRAPH 61. LIKES PAID COMMUNITY JOB

This graph illustrates that among respondents with a paid community job, 89% from Minnesota and 93% across NCI states reported that they like where they work.

States ranged from 86% to 100%.

GRAPH 62. WANTS TO WORK SOMEWHERE ELSE

This graph illustrates that among respondents with a paid community job, 37% from Minnesota and 30% across NCI states reported that they want to work somewhere else.

States ranged from 8% to 49%.

GRAPH 63. LIKES DAY PROGRAM OR REGULAR ACTIVITY

This graph illustrates that among respondents with a day program or regular activity, 87% from Minnesota and 88% across NCI states reported that they like their day program or regular activity.

States ranged from 76% to 95%.

GRAPH 64. WANTS TO GO SOMEWHERE ELSE OR DO SOMETHING ELSE DURING THE DAY

This graph illustrates that among respondents with a day program or regular activity, 42% from Minnesota and 34% across NCI states reported that they want to go somewhere else or do something else during the day.

States ranged from 9% to 50%.

Service Coordination

Case Managers/Service Coordinators are accessible, responsive, and support the person's participation in service planning.

GRAPH 65. MET CASE MANAGER/SERVICE COORDINATOR

This graph illustrates that 94% of respondents from Minnesota and 95% across NCI states reported that they met their case manager/service coordinator.

States ranged from 90% to 99%.

GRAPH 66. CASE MANAGER/SERVICE COORDINATOR ASKS WHAT PERSON WANTS

This graph illustrates that 83% of respondents from Minnesota and 88% across NCI states reported that their case manager/service coordinator asks them what they want.

States ranged from 73% to 96%.

GRAPH 67. CASE MANAGER/SERVICE COORDINATOR HELPS GET WHAT PERSON NEEDS

This graph illustrates that 90% of respondents from Minnesota and 88% across NCI states reported their case manager/service coordinator helps them get what they need.

States ranged from 72% to 97%.

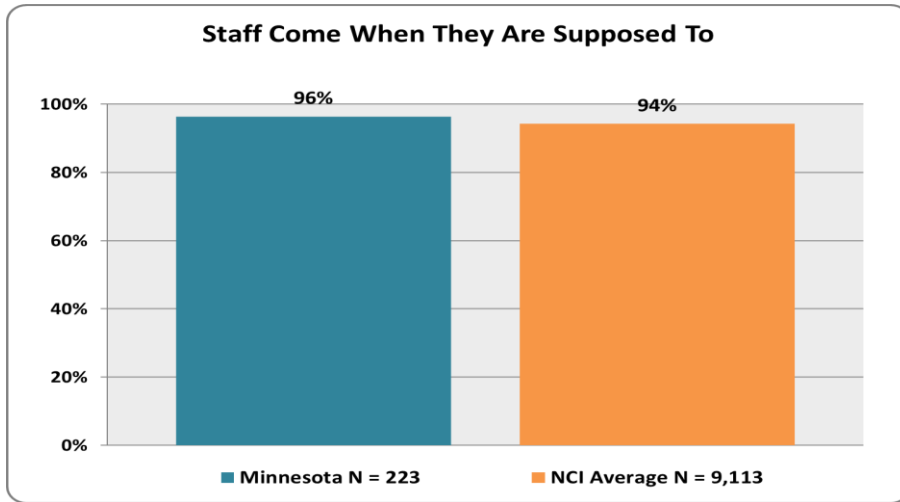

GRAPH 68. CASE MANAGER/SERVICE COORDINATOR CALLS PERSON BACK RIGHT AWAY

This graph illustrates that 71% of respondents from Minnesota and 75% across NCI states reported that if they leave a message, their case manager/service coordinator calls them back right away.

States ranged from 42% to 96%.

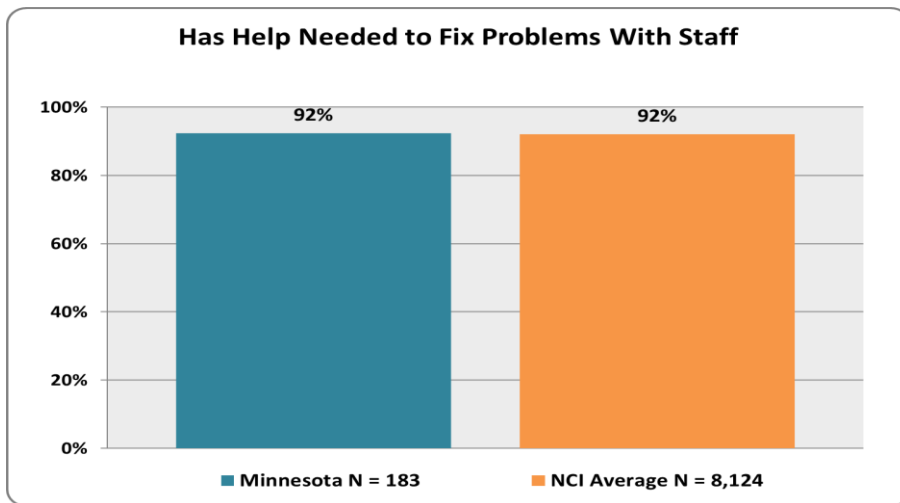

GRAPH 69. STAFF COME WHEN THEY ARE SUPPOSED TO

This graph illustrates that 96% of respondents from Minnesota and 94% across NCI states reported their staff come when they are supposed to.

States ranged from 83% to 98%.

GRAPH 70. HAS HELP NEEDED TO WORK OUT PROBLEMS WITH STAFF

This graph illustrates that 92% of respondents from Minnesota and 92% across NCI states reported that they get the help they need to work out problems with their staff.

States ranged from 87% to 97%.

GRAPH 71. PERSON HELPED MAKE SERVICE PLAN

This graph illustrates that 74% of respondents from Minnesota and 87% across NCI states reported that they helped make their service plan.

States ranged from 74% to 99%.

Access

Publicly-funded services are readily available to individuals who need and qualify for them.

GRAPH 72. GETS NEEDED SERVICES

This graph illustrates that 90% of respondents from Minnesota and 82% across NCI states reported that they get all the services they need.

States ranged from 37% to 93%.

GRAPH 73. STAFF HAVE ADEQUATE TRAINING

This graph illustrates that 93% of respondents from Minnesota and 93% across NCI states reported their staff have enough training to meet their needs.

States ranged from 80% to 98%.

GRAPH 74. ALWAYS HAS A WAY TO GET PLACES

This graph illustrates that 84% of respondents from Minnesota and 84% across NCI states reported that they always have a way to get places when they want to go somewhere.

States ranged from 64% to 97%.

Health

People secure needed health services.

GRAPH 75. HAD AN ANNUAL PHYSICAL EXAM (IN THE PAST YEAR)

This graph illustrates that 62% of respondents from Minnesota and 88% across NCI states were reported to have had a physical exam in the past year.

States ranged from 62% to 98%.

GRAPH 76. HAD A DENTAL EXAM (IN THE PAST YEAR)

This graph illustrates that 72% of respondents from Minnesota and 79% across NCI states were reported to have had a dental exam in the past year.

States ranged from 79% to 90%.

GRAPH 77. HAD AN EYE EXAM OR VISION SCREENING (IN THE PAST YEAR)

This graph illustrates that 58% of respondents from Minnesota and 59% across NCI states were reported to have had an eye exam or vision screening in the past year.

States ranged from 40% to 76%.

GRAPH 78. HAD A HEARING TEST (IN THE PAST FIVE YEARS)

This graph illustrates that 75% of respondents from Minnesota and 65% across NCI states were reported to have had a hearing test in the past five years.

States ranged from 41% to 93%.

GRAPH 79. HAD A PAP TEST (IN THE PAST THREE YEARS, WOMEN)

This graph illustrates that among female respondents, 56% from Minnesota and 67% across NCI states were reported to have had a pap test in the past three years.

States ranged from 42% to 94%.

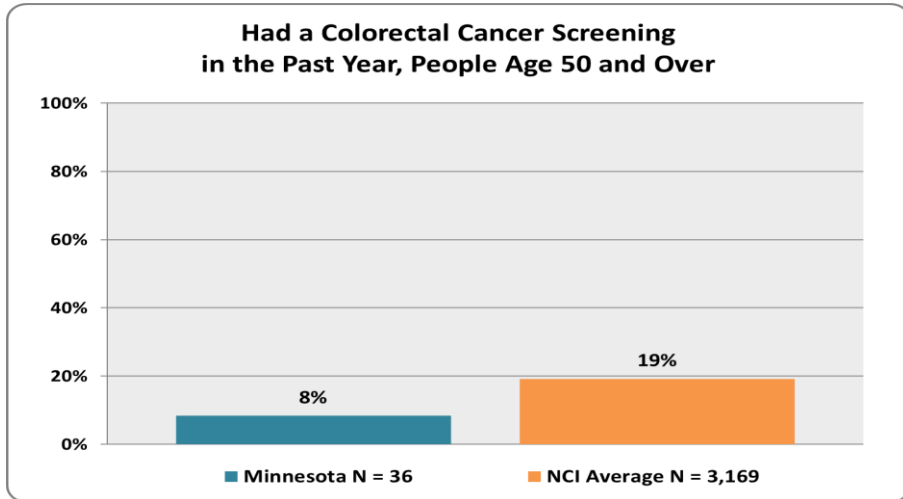

GRAPH 80. HAD A MAMMOGRAM (IN THE PAST TWO YEARS, WOMEN 40 AND OVER)

This graph illustrates that among female respondents age 40 and over, 85% from Minnesota and 75% across NCI states were reported to have had a mammogram in the past two years.

States ranged from 57% to 89%.

States ranged from 1% to 12%.

Respect and Rights

People receive the same respect and protections as others in the community.

GRAPH 85. HOME IS NEVER ENTERED WITHOUT PERMISSION

This graph illustrates that 91% of respondents from Minnesota and 89% across NCI states reported that people always ask permission before entering their home.

States ranged from 74% to 98%.

GRAPH 86. BEDROOM IS NEVER ENTERED WITHOUT PERMISSION

This graph illustrates that 83% of respondents from Minnesota and 83% across NCI states reported that people always ask permission before entering their bedroom.

States ranged from 69% to 95%.

GRAPH 87. CAN BE ALONE AT HOME WITH VISITORS OR FRIENDS

This graph illustrates that 67% of respondents from Minnesota and 77% across NCI states reported that they could be alone at home with visitors or friends.

States ranged from 40% to 91%.

GRAPH 88. HAS ENOUGH PRIVACY AT HOME

This graph illustrates that 91% of respondents from Minnesota and 91% across NCI states reported that they have enough privacy at home.

States ranged from 80% to 98%.

GRAPH 89. MAIL OR EMAIL IS NEVER READ BY OTHERS WITHOUT PERMISSION

This graph illustrates that 85% of respondents from Minnesota and 86% across NCI states reported others do not read their mail or email without their permission.

States ranged from 67% to 96%.

GRAPH 90. CAN USE PHONE AND INTERNET WITHOUT RESTRICTIONS

This graph illustrates that 86% of respondents from Minnesota and 89% across NCI states reported that they can use the phone and internet without restrictions.

States ranged from 39% to 97%.

GRAPH 91. STAFF TREAT PERSON WITH RESPECT

This graph illustrates that 91% of respondents from Minnesota and 93% across NCI states reported that their staff treat them with respect.

States ranged from 77% to 97%.

GRAPH 92. HAS PARTICIPATED IN A SELF-ADVOCACY MEETING, CONFERENCE, OR EVENT

This graph illustrates that 35% of respondents from Minnesota and 33% across NCI states reported that they have participated in a self-advocacy meeting, conference, or event—or were given the opportunity and chose not to.

States ranged from 17% to 50%.

Safety

People are safe from abuse, neglect, and injury.

GRAPH 93. NEVER OR RARELY FEELS AFRAID OR SCARED AT HOME

This graph illustrates that 82% of respondents from Minnesota and 82% across NCI states reported that they never or rarely feel afraid or scared in their home.

States ranged from 67% to 93%.

GRAPH 94. NEVER OR RARELY FEELS AFRAID OR SCARED IN NEIGHBORHOOD

This graph illustrates that 86% of respondents from Minnesota and 83% across NCI states reported that they never or rarely feel afraid or scared in their neighborhood.

States ranged from 71% to 93%.

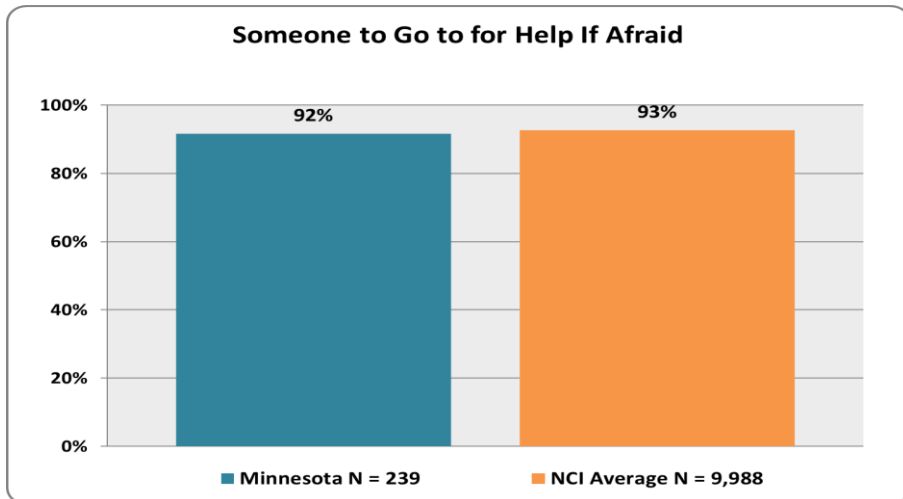

GRAPH 95. NEVER OR RARELY FEELS AFRAID OR SCARED AT WORK, DAY PROGRAM OR REGULAR ACTIVITY

This graph illustrates that 89% of respondents from Minnesota and 86% across NCI states reported that they never or rarely feel afraid or scared at their work, day program, or regular activity.

States ranged from 72% to 94%.

GRAPH 96. PERSON HAS SOMEONE TO GO TO FOR HELP IF EVER AFRAID

This graph illustrates that 92% of respondents from Minnesota and 93% across NCI states reported that they have someone to go to for help if they ever feel afraid.

States ranged from 87% to 98%.

Summary

Recommendations/best practices for interpreting results:

- The NCI State Report allows the state to compare its own results against the average across all NCI states reporting for that particular year.
- The NCI State Report will be generated on an annual basis, enabling states to track system-level changes in performance and outcomes over time as well as in relation to the average across all NCI states.

Cautions:

- All the data presented in this report are “raw” data, meaning no statistical testing was performed. For individual state-to-state comparisons, please refer to the 2013-14 NCI Adult Consumer Survey Report, which is posted on the NCI website (<http://www.nationalcoreindicators.org>).
- A few of these charts show results for questions that had a small number of survey responses (e.g., questions on self-directed supports).

To review additional NCI reports, visit <http://www.nationalcoreindicators.org>.
