CORE
INDICATORS**

Who helped with this report?

We'd like to thank the 2010 members of the California Developmental Disabilities Consumer Advisory Committee. Their ideas helped make this report easy to understand! We'd also like to thank everyone who let us take and use their pictures. They helped make this report interesting.

What We Have Learned from the National Core Indicators Adult Family Survey

A Collaborative Effort of:

Cover art by Donald Roberts (1962 -2009)

Donald was a former member of the statewide Consumer Advisory Committee in California, Valley Mountain Regional Center Board of Directors, Olmstead Advisory Committee, California Memorial Project, and Self-Advocacy Council 6. Donald was dedicated to the empowerment of people with disabilities and expressed his experiences and dreams through his artwork.

What is the National Core Indicators (NCI) Adult Family Survey?

Each year, NCI asks people with intellectual and developmental disabilities and their families about the services they get and how they feel about them. NCI uses surveys so that the exact same questions can be asked to a large group.

The NCI Adult Family Surveys are mailed to families in many states. States use the surveys to find out if families are happy with the services their family member gets.

Who answers the questions on an Adult Family Survey?

The questions on the Adult Family Survey are answered by someone who lives with an adult who gets services from the state (like a parent or other family member). The person who answered the questions *is not* the person who gets the services. Each time the state surveys families, a new group of families is asked to take the survey.

What is in this Report?

Once all the surveys are done, NCI tells us how most people felt. Each page of this report shows a different survey question and the answers people gave. Each page also has a pie graph. The numbers in the pie graphs are percentages (like 60% or 90%). Percentages go from 0% to 100%.

Higher percentages mean that more people answered in a certain way. For example, 90% means 9 out of 10 people answered the same way. Lower percentages mean that fewer people answered in a certain way. For example, 20% means 2 out of every 10 people answered the same way.

There are also words and figures that show how many **yes** and **no** answers there were for each question.

Some of the survey questions had answer choices like “always,” “usually,” “sometimes,” “seldom,” or “never.” All people who answered “always” or “usually” are counted as **yes** in this report. All other answers are counted as **no**.

This report has information people can use to talk about services and supports. If you want more information, you can look up the full reports at:

<http://www.nationalcoreindicators.org>.

Things to know before you start reading this report:

These questions were not asked to the person who receives services. The questions were answered by someone who lives with the person and knows the person well. Most of the time, a parent answered the questions. When questions say “family member,” it means the person receiving services from the state.

There are a few words in this report that can mean different things:

- Case Manager can mean Support Coordinator or Service Coordinator
- Service Plan can mean Individual Service Plan (ISP) or Individualized Program Plan (IPP)

When it's time to plan services, sometimes other people want to help. NCI asked families about the information they get to help plan services.

Do you get enough information to help plan services for your family member?

NCI tells us **7** out of every **10** people said they **always or usually** get enough **information to help plan services** for their family member.

Is the information you get about services easy to understand?

 **20%**
Information
about
services
and
supports is
not always
or usually
easy to
understand

 **80%**
Information
about
services and
supports is
always or
usually easy
to
understand

NCI tells us **8** out of every **10** people said **the information they get about services is always or usually easy to understand.**

Does the case manager respect your family's choices and opinions?

NCI tells us **9** out of every **10** people said **the case manager always or usually respects the family's choices and opinions.**

Does the case manager tell you about public services your family can get? Like food stamps or SSI.

NCI tells us **7** out of every **10** people said the **case manager always or usually tells them about public services the family can get.**

Did your family get information about your family member's rights? Like the right to get unopened mail, the right to dignity and respect, and the right to be free from abuse.

NCI tells us **9** out of every **10** people said **they got information about their family member's rights.**

People receiving services have a service plan. The service plan should include things the person wants and needs.

Did your family member help make the service plan?

 **30%**
Family member did not help make the service plan

 **70%**
Family member helped make the service plan

NCI tells us **7** out of every **10** people said **their family member helped make the service plan.**

Did you help make the service plan?

 10%
Family
did not
help
make the
service
plan

 90%
Family
helped
make
the
service
plan

NCI tells us **9** out of every **10** people said **they helped make the service plan.**

It is important to be able to contact support workers and service coordinators. NCI asked if family could contact support workers when they were needed.

Can you or your family member contact support workers when needed?

NCI tells us **9** out of every **10** people said **they and their family member can always or usually contact support workers when needed.**

Can you or your family member contact your family member's case manager when needed?

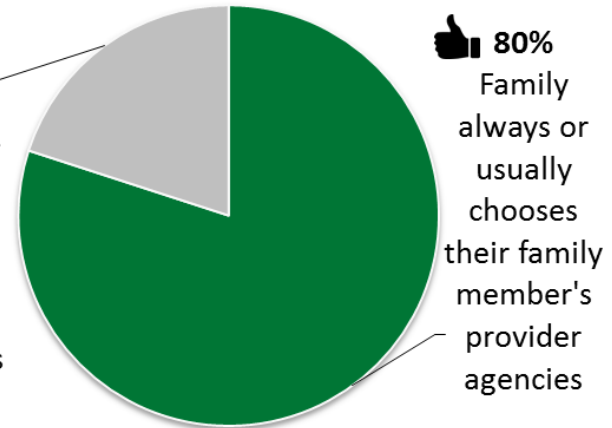

NCI tells us **9** out of every **10** people said **they can always or usually contact their family member's case manager when needed.**

NCI asked families if they chose the support workers and case manager who work with the person receiving services.

Do you choose your family member's provider agencies?

 20%
Family
does not
always or
usually
choose
their
family
member's
provider
agencies

 80%
Family
always or
usually
chooses
their family
member's
provider
agencies

NCI tells us **8** out of every **10** people said **they always or usually choose their family member's provider agencies.**

Does your family member choose his or her provider agencies?

 **60%**
Family member does not always or usually choose his or her provider agencies

 **40%**
Family member always or usually chooses his or her provider agencies

NCI tells us **4** out of every **10** people said **their family member always or usually chooses his or her provider agencies.**

Do you choose your family member's support workers?

NCI tells us **5** out of every **10** people said **they always or usually choose their family member's support workers.**

Does your family member choose his or her support workers?

NCI tells us **3** out of every **10** people said **their family member always or usually chooses his or her support workers.**

NCI asked questions about what the person did during the day.

Does your family member have a paid job in the community?

NCI tells us **2** out of every **10** people said **their family member has a paid job in the community.**

Do you feel your family member's day activity or job is a healthy and safe place?

NCI tells us **10** out of every **10** people said the **person's day activity or job is always or usually a healthy and safe place.**

NCI asked whether people joined in community activities (like sports, religious or spiritual services, or entertainment).

Does your family member take part in community activities?

NCI tells us **9** out of every **10** people said **their family member takes part in community activities.**

Does your family member have friends other than staff or family?

NCI tells us **8** out of every **10** people said **their family member has friends other than staff or family.**

Does your family member have enough support to work or volunteer in the community?

 **40%**
Family member does not have enough support to work or volunteer in the community

 **60%**
Family member has enough support to work or volunteer in the community

NCI tells us **6** out of every **10** people said **their family member has enough support to work or volunteer in the community.**

NCI asked how families felt about the services and supports their family member gets.

Are you happy with the services and supports your family gets?

NCI tells us **9** out of every **10** people said **they are always or usually happy with the services and supports their family gets.**

Do you feel services and supports have made a positive difference for your family member?

 **10%**
Family does not feel services and supports have made a positive difference for family member

 **90%**
Family feels services and supports have made a positive difference for family member

NCI tells us **9** out of every **10** people said **services and supports have made a positive difference for their family member.**
